**Abstract**—This paper provides the instructions for the preparation of final manuscripts for the Proceedings of ISIT 2006 and relevant style file that produced this page.

## I. INTRODUCTION

The 2006 IEEE International Symposium on Information Theory will be held at The Westin Seattle, Seattle, Washington, from Sunday, July 9, through Friday, July 14, 2006. All accepted papers will be allowed 20 minutes for presentation.

## II. PROCEEDINGS

Accepted papers will be published in full (up to five pages in length) on CD-ROM. A hard-copy book of abstracts will also be distributed at the Symposium to serve as a guide to the sessions.

The deadline for the submission of the final camera-ready paper is **23:59 EDT May 20, 2006**. Acceptor papers not submitted by that date will not appear in the ISIT Proceedings and will not be included in the technical program of the ISIT.

## III. PREPARATION OF THE PAPER

Only electronic submissions in form of a Postscript (PS) or Portable Document Format (PDF) file will be accepted. Most authors will prepare their papers with  $\text{\LaTeX}$ . The  $\text{\LaTeX}$  style file (`IEEEtran.cls`) and the  $\text{\LaTeX}$  source (`isit_example.tex`) that produced this page may be downloaded from the ISIT 2006 web site. Do not change the style file in any way. Authors using other means to prepare their manuscripts should attempt to duplicate the style of this example as closely as possible.

## IV. ELECTRONIC SUBMISSION

The final papers should be uploaded via the ISIT web page <http://www.isit2006.org>. No other submission options will be supported. Prior to uploading the paper at least one of the authors must **register** for the symposium. The registration link is available on the symposium web page <http://www.isit2006.org>. A password is required to upload the paper. Passwords are provided to the authors of the accepted papers in the acceptance notification emails.

Together with submitting the final manuscripts the authors of accepted papers will be requested to submit an abstract of

their papers. A window to submit the abstract in the plain text format is provided on the upload page.

The style of references, e.g., [1], equations, figures, tables, etc., should be the same as for the *IEEE Transactions on Information Theory*. The affiliation shown for authors should constitute a sufficient mailing address for persons who wish to write for more details about the paper.

## V. CONCLUSION

The conclusion goes here.

## ACKNOWLEDGMENT

The authors would like to thank various sponsors for supporting their research.
